

Creating Connection Across South Dunedin

**Kia Ora, Talofa Lava, Welcome. South Dunedin Community Hui. Bathgate Park School.  
12 August 5:30pm-8pm**

Water. Arguably the most pressing issue facing South Dunedin.

What does climate change, sea level rise and the increased risk of flooding mean for me and my family?

What should I do in the short, medium and long term to protect us and our community?

What are the DCC and central government doing about it?

Worldwide, citizens and governments are grappling with these complex questions, and it seems there are no clear answers yet.

**In South Dunedin we want to be part of finding a way forward for our community.**

We want to be part of the decision-making process with the Council – and they want to be involved with us – in finding answers which are financially viable and fair.

Solutions can be found that put people's welfare at the centre of the decision-making process, alongside economic and political needs.

The DCC is keen for us to work together so we have a real chance to do things differently.

Change is happening and now could be an opportunity for some good changes!

For example: higher quality housing, waterways with parks and excellent urban design.

**Come along to the 5<sup>th</sup> South Dunedin Community Hui on Monday 12<sup>th</sup> August 5.30 – 8pm at Bathgate Park School Hall for:**

Displays by the water management people and an opportunity to find out what's going on, ask some questions and talk with your community.

**An amazing free hot meal will be provided by the Samoan Methodist Church.**

Families are welcome!

There will be a kids' programme for 5-12 year olds including discussion about what they want to see happen in South Dunedin and activities about the environment and sustainability. There will also be a supervised play area for under 5s.
